

DATA SHEET 22SMB.085.01030

## SPMB

White matt PP Face Film for the production of self-adhesive labels for ink jet label printers. Seawater resistant according to BS5609

### Printing Systems

### Rolls

Art.Number	Width (mm)	Thickness	Length (m)
22SMB.085.01030	1030	0,060 mm	bulk roll

### Technical data

#### Characteristic

- High brilliance of colours
- Inkjet coating seawater resistant, certified according to BS5609
- Tear resistant
- Good cutting and punching properties

#### Finish

- White matt

#### Specifications

Coating Printsides	Microporous coating
Width (mm)	1030
Thickness of carrier material	0,060 mm
Thickness base material with inkjet coating	0.083 mm +/- 0.006 mm
Grammage	Base Film ~45 g/m <sup>2</sup> +/- 3g/m <sup>2</sup> , Coating weight ~14 g/m <sup>2</sup> +/- 2 g/m <sup>2</sup>

Length (m)	bulk roll
Roll width / Roll usable width	Please contact Folex if you need other roll widths and roll lengths. We can convert the rolls according to your wishes.
Base Material	Polypropylene

### Compatibility

- Suitable for most Ink Jet label roll printers using dye- or pigmented inks.

### Storage

- Shelf life: 1 year after delivery
- In its original packing at 20-25°C, 45-55% humidity.

### Product liability clause

The foregoing information and any consulting provided by us in terms of application engineering shall be given to our best knowledge, but shall not be considered binding information neither with regard to any third party industrial property rights. Any such consulting shall not relieve you from your own review of our current consulting information as to their suitability for the intended procedures and applications. It is the users responsibility to determine the suitability for his/her own use and application and test through the complete production process to ensure the product is fully suitable for the intended use, since conditions of use are beyond our control. The sale of our products shall be subject to our current General Terms and Conditions. We reserve the right to make changes that serve to improve the product.
