

HIGH GLOSS, SUPER FAST DRYING INK JET LABELS

Ladies and Gentlemen, dear friends of Folex,

if you want to print impressive film labels fast, that look stunning, then go no further than selecting Folex [Signalit SIVN](#). The nano-porous high-end vinyl is a white, luxury-gloss film with a permanent adhesive that offers high performance:

- Nano coating
- Instant-Dry
- High gloss coating
- Very high colour brilliance

Poor water resistance and long drying times with water-based inks are finally a thing of the past. The [Signalit SIVN](#) film is suitable for printers using water-based pigment and dye inks. Images dry instantly and promise a brilliant print result, even when printing under tight deadlines. No additional lamination is needed to achieve a high gloss finish. These advantages save time and money and offer the highest quality, for the production of professional looking stickers, signage, labels, mock-ups etc.

[Signalit SIVN](#) is available in 0.130 mm thick vinyl self-adhesive film with paper release backing in sizes A4, A3 and SRA3 to special order.

Would you like a sample? Please send us an [e-mail](#).

ABOUT FOLEX

The Folex group specialises in the finishing and coating of films and specialities and has production companies based in Switzerland (Schwyz) and Germany (Cologne and Erlangen) that offer high-quality products and tailor made services for a wide variety of markets. Today Folex offers solutions for many sectors, from the printing industry or digital and large format printing, the office and home sector, all the way to primary products for the electronics industry.
